

A request was received to have mistakes found in the 2006 Unitrade Specialized Catalogue of Canadian Stamps presented in such a way that they could be pasted into the catalogue with the same font and layout.

The items presented here are what I would consider the ‘major’ mistakes; those dealing with pricing alignment or incorrect images/captions. Grammar or typographical mistakes are not presented here.

You may or may not get identical quality; this is completely dependant upon the printer you use and the scale you print this document.
